

- Health Benefits of Climate Action -

Stable Climate for a Safer Planet

The more we do to slow climate change and prevent temperatures from rising, **the safer we will be** from extreme weather events, wildfires, sea level rise, and infectious diseases from ticks and mosquitoes.

ACTION!

What can I do?

Learn more about how your town and state is being impacted by climate change and what is being done to prepare for future impacts.

Get involved with a local group advocating for climate policies.
