CLIMATE CHANGE AND HUMAN HEALTH ECHO

**Global Nuclear and Environmental Threats
Critical to Climate Change and Human Health**

**Wednesdays, March 6 – May 15
Bi-Weekly**

12 p.m.-1 p.m. MT/ 2 p.m.-3 p.m. ET/ 11 a.m.-12 p.m. PT

Given the decades-long global threats of nuclear weapons and power, environmental health exposures from chemical solvents and superfund sites, and resulting environmental injustice, our bi-weekly sessions will be a primer for health professionals, public health officers, first responders, and community-based educators interested in learning from nationally and internationally known experts.

Medical Director – Joanna Katzman, MD, MSPH

Global Nuclear and Environmental Threats Critical to Climate Change and Human Health

Date	Presentation Title	Speaker(s)	Organization(s)
March 6	The Global Nuclear Threat and Nuclear Landscapes in the United States	Robert M. Gould, MD	President, San Francisco Bay Physicians for Social Responsibility
